

Mother's day 2006 present

I painted this disk drive case as a Mother's Day present. I choose to draw penguins, because they are funny, especially when they are sliding. And I like the love bugs, because they are cute.

The story is that the kid penguin can't see the penguin playing the saxophone, so he's flying (!) up to see better. The mother penguin is worried that the kid is going to fall, because penguins can't fly. The penguin playing the saxophone is doing scales (*do-ra-me-fa-so-la-te-do*).
